

7 x 24 Exchange – Lone Star Chapter – Spring Forum 2006

7 x 24 Exchange Lone Star Chapter's mission -- To be the leading knowledge exchange in Texas among those who design, build, use and maintain mission critical enterprise information infrastructures aiming to improve end-to-end reliability by promoting dialogue among these groups.

On May 9, 2006, Michael Cozzi of Cirro Energy Services Inc. will be delivering a presentation on avoiding 4CP (coincidental peaks) charges in ERCOT, and participating in a panel discussion on strategic energy procurement principles for large datacenters. The conference will be attended by facility managers, datacenter managers, and energy managers from most of the large datacenter providers in North Texas.
